\*MSRP excludes the Delivery, Processing, and Handling Fee of R99,500 for Cars (86, Avalon, Avalon HV, Camry, Camry HV, Corolla, Corolla HV, Corolla HB, Mirai, Prius, Prius Prime, Supra), R11,175 for SUV/Van/Small Trucks (4Runner, C-HR, Highlander, Highlander HV, RAV4, RAV4 HV, RAV4 Prime, Sienna, Tacoma, Venza), R121,365 for Large SUVs (Land Cruiser, Sequoia), and R11,595 for Large Truck (Tundra). (Historically, vehicle manufacturers and distributors have charged a separate fee for processing, handling and delivering vehicles to dealerships. Toyota's charge for these services is called the "Delivery, Processing and Handling Fee" and is based on the value of the processing, handling and delivery services Toyota provides as well as Toyota's overall pricing structure and may be subject to change at any time. Toyota may make a profit on the Delivery, Processing and Handling Fee.) Excludes taxes, license, title and available or regionally required equipment. The published prices do not apply to Puerto Rico and the U.S. Virgin Islands. Actual dealer price will vary. Source: Toyota.com

## TOYOTA GR COROLLA

Toyota has turned its performance-vehicle skunkworks division, Gazoo Racing, loose to apply the tuner treatment to the compact Corolla hatchback. And what a good bit of work they've done: the end result is the 2023 GR Corolla — and it's a little terror. Toyota has already unleashed a GR-tuned version of its Yaris subcompact car in global markets, from which the GR Corolla borrows its turbocharged 1.6-liter, three-cylinder engine. The little triple is amped up here to 300 high-strung horsepower and comes only with a six-speed manual transmission and all-wheel drive.

# ADDITIVES

## VITAMINS FOR YOUR MOTOR

Additives are vitamins for your car. It won't work without them. They ensure cleaning and corrosion protection, for stable lubrication and temperature resistance. Even simple mineral motor oils, which no longer come close to meeting the requirements of today's motors, are up to 15% additives. Modern oils, such as fully synthetic motor oils, are even up to 30%.

With LIQUI MOLY additives you protect your motor, reduce your fuel consumption and save cash. Our oil additives clean the motor from the inside, minimize friction and wear, reduce oil consumption and protect against corrosion. They are suitable for both petrol and diesel motors and help to recreate the original performance of your vehicle motor.

Our fuel additives for petrol and diesel keep the entire fuel system clean and guarantee optimum combustion and compression.

All of our additives have a common benefit: They help to clean and care for the entire motor and fuel system. And they help increase the life span of the motor and reduce fuel consumption.
